An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bill Lacy on 8/29/05.

The application has been amended as follows:

In the first paragraph of the specification on page 1 after "March 13, 2002" insert --- now U.S. Patent 6,677,401 ---.

In claim 1 line 3 delete "comprising a first material"

In claim 1 line 4 after "120,000 psi" insert --- comprising a first material ---

Cancel claims 2, 15 and 16.

In claim 4 fourth line from end delete "including".

In claim 4 third line from end delete "including".

The following is an examiner's statement of reasons for allowance: The statement of common ownership removes the obviousness rejection. The terminal disclaimers remove the obviousness double patenting. The change to claim 1 is necessary because the specification (page 5 line 22; page 7 line 5) indicates the blend (not the first material) has the recited modulus. Claim 2 is cancelled because the specification (page 13) lists these species as alternative inner covers (not as blending partners for the grafted metallocene). The blending partners for the grafted metallocene are listed on page 26 of spec.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Buttner whose telephone number is 571-272-1084. The examiner can normally be reached on 10:00-5:30.
